## ANANTARA HYDROPONIC FARM

'straight from the farm to the table in a day'

# BANGKOK'S FIRST HOTEL-BASED ORGANIC HYDROPONIC FARM

Anantara Riverside Bangkok is the proud home of Bangkok's very first hotel-based Hydroponic Farm, created in partnership with the Bangsai Agricultural Centre - a family owned Thai business and one of the very few companies certified with credentials in hydroponic farming. For more than six years the company has been researching and developing the practice of soilless culture with great success.

Take a tour of our hotel's 2,800 square metre rooftop farm. Featuring purpose-designed sprouting rooms, green houses and tunnels, plants are grown in a mineral-rich solution on specially constructed platforms, using controlled temperature and lighting for ideal conditions. Discover how innovative techniques use no soil. See for yourself how plants are cultivated using the Dynamic Root Floating and Nutrient Film techniques, Hydroponic Drip Irrigation Bucket and Water Fogging systems, to efficiently deliver water and nutrients.

The results speak for themselves. This sustainable, healthy farming method produces a wide selection of certified organic Asian and western herbs, vegetables and salads, all containing the highest possible nutritional value - boasting up to seven times richer nutrients than local supermarket produce, while using 90% less water, 70% less land and 50% less fertiliser.

Delighting Anantara's chefs, our urban farm yields over 30 kilogrammes of fresh vegetables and herbs on a daily basis to our restaurant kitchens. Sustainable, safe and reliable year-round, healthy living is bursting with flavour. Taste the difference, savouring dishes of fresh farm to table goodness.

Looking to the future, this locally grown, organic project is planned to the next level, by offering educational seminars, training and talks to agricultural universities on the goodness of Hydroponic Farming, as well as educating local school children, institutions and hotel guests about the sustainable and healthy benefits.

Anantara Hydroponic Farm is open for site visits.
