Are you looking for a safe, gentle and highly effective method of releasing aches and pains? Myotherapy is a unique manipulation technique of the muscles to remove chronic or acute pain in muscles, joints and ligaments, and is Dr. Serge's specialty. Without overstretching or cracking, this painless realignment therapy is based on the theory of muscle-chains, yoga breathing and physiology to change the blueprint of your body.

Do you need to refresh your thinking to make positive life changes, overcome challenges and fulfill your maximum potential? In a confidential consultation, by understanding what your desired results are, Dr. Serge applies methods of Neuro-linguistic Programming (NLP) or Life Coaching. NLP focuses on changing one's communication to achieve greater personal development and attainment of goals. NLP is directly related to the connection between neurological processes, language and behavioral patterns learned through experience. Life coaching offers practical tools that assist you in addressing specific personal projects, business successes, general conditions and transitions in your life, relationships or profession.
